The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art in view of Duren

Duren and the admitted prior art apply as per the last office action.

Claims 5-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 14-30 and 32-39 are allowed.

Applicant's arguments filed September 2, 2005 have been fully considered but they are not persuasive.

In particular, there is nothing in the rejected claims that requires that the weight be unattached from the seal thus, applicant's argument that the Duren weight is not a weight for this reason is unconvincing. Secondly, the ribbed structure of Duren would have weight since this is an inherent quality of the structure. Thirdly, while the examiner still believes the at Figure 1 shows the weight only over the opening and not the seat, this is very clearly shown in Figure 2 wherein the rim of the sealing member (10) is shown as exterior to the foot of the rib or weight.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
